

CA168 / CA468

- Digital World - where did the module come from ?
- What's it about ?
- CA168 vs CA468 ?
- Who teaches it ... Alan, Cathal and a dozen others
- Should I choose it ... oh yes ! Why ?
- Lectures and guest lecture/labs

<http://www.computing.dcu.ie/~cgurrin/ca168/>

Lectures Weds 9-11

- Week 1. Introduction to and History of the Digital World(*) Alan
- Week 2. Data Storage(*) Alan
- Week 3. No lecture
- Week 4. Digital Libraries Alan
- Week 5. No Lecture
- Week 6. Search Engines (1)(*) Cathal
- Week 7. Search Engines (2)(*) Cathal
- Week 8. Search Engines (3)(*) Cathal
- Week 9. The Digital Environment Alan
- Week 10. The Digital Economy Alan
- Week 11. MultiMedia Search (1)(*) Cathal
- Week 12. MultiMedia Search (2)(*) Cathal
- Notes available online (*) is CA168/CA468

Guest lecture / labs

1. Virtual Worlds : Colum Foley
2. Blogging : Adam Bermingham
3. The Environment : Edel O'Connor
4. Gaming : Eoin Hurrell
5. Social Networking : Owen Phelan
6. Human Computer Interaction : Niamh Caprani
7. Human Digital Memory : Aiden Doherty
8. Personal Media : Neil O'Hare
9. Collaborative Search : Barry Smyth
10. Digital TV : Paul Ferguson

Guest lecture / labs

- For CA168, do as many labs as you want, the top-8 scores count.
- For CA468, do as many labs as you want, the top-5 scores count. Reading week ?
- Labs count for 50%; exam counts for 50%
- Exam format ... CA168 is 5 from 8 over 3 hours ... CA468 is 3 of those 5, from 5 of those 8, over 2 hours
- Previous exam questions are available online, and the pass rate ?

Labs

- Tuesdays 14:00-15:00 - Guest Lecture (C1.15)
- Tuesdays 15:00-16:00 - Lab Session (L1.14)

- Marks shortly after the labs.
- Access to machines in Computing building ?

Textbook

- Recommended textbook ? There is none really .. Some links to some reading material on webpage but not strong links. Some links in lectures.
- A different module ... not learning, but understanding
