## Table of contents

1 CA597/597A eCommerce Infrastructure.....	2
2 Advanced Operating Systems.....	2
3 eCommerce Infrastructure.....	2
4 Masters Students Tutoring.....	2
5 Databases.....	2
6 Core Component Technologies.....	2
7 CA620 - Service-Oriented Architectures.....	2
8 CA212 - OO Design and Implementation.....	2

I lecture the following course at the [School of Computing, D.C.U.](#)

### **1. CA597/597A eCommerce Infrastructure**

MSc in Electronic Commerce and Grad Diploma in Information Technology (Semester 2 2006)

I supervise (or have supervised) the following laboratory sessions at the [School of Computing, D.C.U.](#)

### **2. Advanced Operating Systems**

Masters in Security & Forensic Computing - Advanced Operating Systems (Semester 1 2003, Semester 1 2004, Semester 1 2005)

### **3. eCommerce Infrastructure**

Masters in Electronic Commerce - eCommerce Infrastructure (Semester 2 2004)

### **4. Masters Students Tutoring**

Tutor assisting MECT & MSSF students in Java (Semester 2 2005)

### **5. Databases**

BSc in Computer Applications - Databases (Semester 2 2004, 2005)

### **6. Core Component Technologies**

MSc in Software Engineering - Core Component Technologies (Semester 1 2005)

### **7. CA620 - Service-Oriented Architectures**

MSc in Software Engineering - Service-Oriented Architectures (Semester 2 2006)

### **8. CA212 - OO Design and Implementation**

BSc in Computer Applications - OO Design and Implementation (Semester 2 2006)
